90'S STYLE POWER-POP-PUNK FROM CHICAGO

FFO: THE REPLACEMENTS, CHEAP TRICK,
GOO GOO DOLLS, SUPERCHUNK

BIO

Chicago's power-pop-punk stalwarts, Woolworthy, were a cornerstone of the late 90s – early 2000s Chicago music scene, known for their unique brand of Midwestern guitar rock reminiscent of The Replacements and Cheap Trick. After a long run, the band called it a day in 2005 but returned in 2023 with a new record, *Electric Heartbreak*, on Boss Tuneage Records. Their new album showcases 11 inspired tracks filled with emotionally charged lyrics, powerful guitar riffs, and infectious pop-punk anthems recorded by Jeff Dean (Samiam, Cheap Girls, The Bollweevils) and mixed by Mike Hagler (Wilco, The Mekons, Neko Case).

With members who've made their mark in bands like The Dead On, Caviar, and Dan Vapid and The Cheats and Loud Lucy, Woolworthy brings a wealth of experience and diverse influences to their signature sound. Once praised by Kerrang! Magazine as "one of the punk underground's best-kept secrets," Woolworthy is ready to reclaim their spot in the power-pop-punk scene.
